

Microsoft Business Scorecarding & Cizer.Net Reporting

Cizer Software

www.cizer.com

sales@cizer.com

703 554 1400 x425

800 622 1240

Solution Requirements:

Client-Side:

The client machines only require Microsoft Office, & preferably Office 2003, to use the full functionality of pivot charts and pivot tables.

Internet Explorer (Required)

Office Web Components (Optional*)

Enhanced analytic tools (PivotCharts / PivotTables) can be accessed on the client using Office Web Components (installed standalone, or as part of any Microsoft Office Installation.)

Server-Side:

The following server software is required for implementing the CNR/BSM solution.

Microsoft Windows Server™ 2003 with Service Pack (SP) 1

Microsoft .NET Framework 1.1 with ASP.NET 1.1 enabled

Microsoft Internet Information Services (IIS) 6

Microsoft SQL Server™ 2005 w/Integration Services (SSIS) & Analysis Services (SSAS)

SQLXML 3.0 SP 3

MSXML 4.0 with SP 2.

ADOMD.NET 8.0.

Microsoft Windows SharePoint Services 2.0 with SP2.

Cizer.Net Reporting 3.2

Microsoft Office 2003

Microsoft Business Scorecard Manager (BSM) - Builder.msi, Server.msi

Office Web Components (OWC) version 11.0.0.8001

Connecting to additional BI Resources:

OLE DB connectable data sources (DB2, Oracle, SQL Server, Informix, etc...)

Mainframe Files (VSAM, Unify, etc...)

Flat Files (.csv, delimited files)
